EDUCATION

Boston University

Bachelor of Arts in Computer Science and International Relations

Boston, MA

Sep 2020 - May 2024

Sciences Po Paris

Undergraduate Exchange in International Relations

Paris, France

Jan 2023 – May 2023

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS)

Boston, MA | New York, NY

Software Development Engineer, Full Stack

Sep 2024 – Present

- Develop and maintain large-scale, customer-facing cloud infrastructure services for FSx for ONTAP (FSxN), supporting enterprise workloads for thousands of AWS customers
- Lead AI Agents development across the organization, building an orchestrator that autonomously investigates and resolves operational issues, significantly reducing engineering toil and establishing team-wide best practices
- Designed and built an international digital policy platform featuring an AI research-and-creation agent, developed in collaboration with Amazon's International Policy and Strategy teams

Software Development Engineer Intern

Jun 2023 – Aug 2023

- Built an optimized feature-flag deployment system using AWS AppConfig for the Elastic File System team
- Streamlined EFS deployment processes to improve reliability and enable safer service launches, reducing risk to millions of end users

Harvard T.H. Chan School of Public Health, CNA Institute for Public Research

Boston, MA

Terrorism Subject Matter Expert

Feb 2022 – Sep 2023

- Co-lead NIJ-funded project on Domestic Terrorism: Using Psychosocial, Trauma-Related, and Life History Variables to Inform Intervention and Prevention (NIJ Award #15PNIJ-21-GG-02723-DOMR)
- Conducted open-source research into U.S.-based terrorists to populate an offender-level psycho-social database
- Led comparative analysis of populated database entries, and communicated findings to the client

U.S. Government, Department of Defense

Fort Meade, MD

Intelligence Analyst Intern

May 2022 – Aug 2022

- Prepared disseminated and raw information to test novel network analysis tools before launch
- Analyzed data for IC foreign intelligence purposes, more information available upon request

Software Engineering Intern

May 2021 – Aug 2021

- Converged legacy intelligence reporting tools with Java, Docker, Spring Boot, MongoDB
- Applied MVC patterns, DTO/DAO flows, and Agile practices in a collaborative back-end environment

Boston Area Model U.N. Conference (BarMUN)

Boston, MA

Secretary-General/President

Oct 2021 – Nov 2022

- Led a 150+-person organizing team to execute an international conference convening 400+ delegates from 40+ universities across 6 continents
- Doubled revenue, increased profits by 16%, attendee numbers by 28%, and staff size by 30%

PUBLICATIONS

- “Generative AI and the Kremlin’s Newest Assault on Information,” Boston University International Relations Review, 2023
- “The Emerging Regulation of AI in Personal Data,” Boston University Pre-Law Review, 2021
- AI and technology policy commentary published on <https://justaswe.substack.com/>, 2025
